Curriculum Vitae

- <u>Name</u>   :   Kunal Raut
- <u>Mobile</u> :   +91 - 9923363569
- <u>Email</u>   :   kkraut10@gmail.com
- <u>Location</u>:   Pune, Maharashtra, India.

Profile Summary

- **3 years** of IT experience in designing and developing Telecom/Health domain web and Enterprise applications using multiple technologies like React.js, Redux, Hooks, JavaScript, JSX ,CSS, HTML and SQL.

- Experience Handling complex software systems that have been successfully delivered to customers.

- Knowledge designing the applications, creation of technical documents.

- Strong understanding of React.js, Redux, Hooks, MySQL.

- Knowledge of professional software engineering practices & best practices for the full software development life cycle, including coding standards, code reviews, source control management, build processes, testing, and operations.

- Knowledge of Google Data Studio, AWS, Jenkins .

- Knowledge of HTML,CSS/Bootstrap.

- Profound Knowledge and Expertise in complete Software System development life cycle (**SDLC**) including design, development, implementation, integration, testing and maintenance, bug fixing.

- Knowledge of functional testing of Enterprise applications during System Integrated testing (SIT) as well as User acceptance testing (UAT).

- Involved in the requirement gathering, design requirement, deployment support with the client.

Educational Qualification:

Sr.no.	Qualification	Board/University	Percentage
1)	B.E. (ECE)	SGBAU	87%
2)	12"	State Board	60%
3)	10	State Board	79%

Summary of Technologies Used: -

Sr.no	Technology Stack
1	React.js
2	Redux,Hooks,Axios
3	JavaScript
4	CSS/Bootstrap,HTML
5	MySQL
6	Basic Node.js
7	Basic Java
8	Basic Database concept, SQL Queries, Stored Procedure ,Google Data Studio
9	Basic AWS Lambda
10	Tools – Remedy,JIRA, Win Scp, Postman.

PROFESSIONAL EXPERIENCE

- **Project Name   :   IDMA Dashboard**

- Skill Sets   :   React.js, Redux, Hooks, Axios, Node.js, SQL, AWS,CSS/Bootstrap.

- Servers   :   AWS (Cloud front).

- Role   :   React Developer

- Duration of the Project :   June 2019 – till date.

- Description   : -

This is a Web based Project developed to help Business to hold their procedural action on Patient/HCP for their Business . The application provides the detail of the Patient/HCP and their current status, so that they can increase their   patients/HCP efficiently/effectively. The detail report generation of the Patient/HCP provide the total log of disease/medicines/equipment involved/used over a period. It provides the user with the appropriate health plan and treatment with analyzing the data captured over the years.

User(Business) can perform report generation in PDF format of As per requirement for a patient /HCP and log his/her report of patient which then will be graphically represented for better understanding of increase of business.

- Responsibilities :

1) Requirements Gathering, Requirement Analysis, Designing the Technical Documents.

2) Designing, Planning and developing the requirement provided within the given timelines.

3) Perform Production Deployment ,Unit testing, System Integrated Testing, coordinating with the client for performing User Acceptance Testing (Q/A).

Personal Details

Name	:	Kunal Raut
Date of Birth	:	10th August 1995
Education Qualification	:	B.E (ECE).
Contact Details	:	+91 – 9923363569
Current Location	:	Pune (India)
Current Company	:	**Cognizant Technology Solutions**
